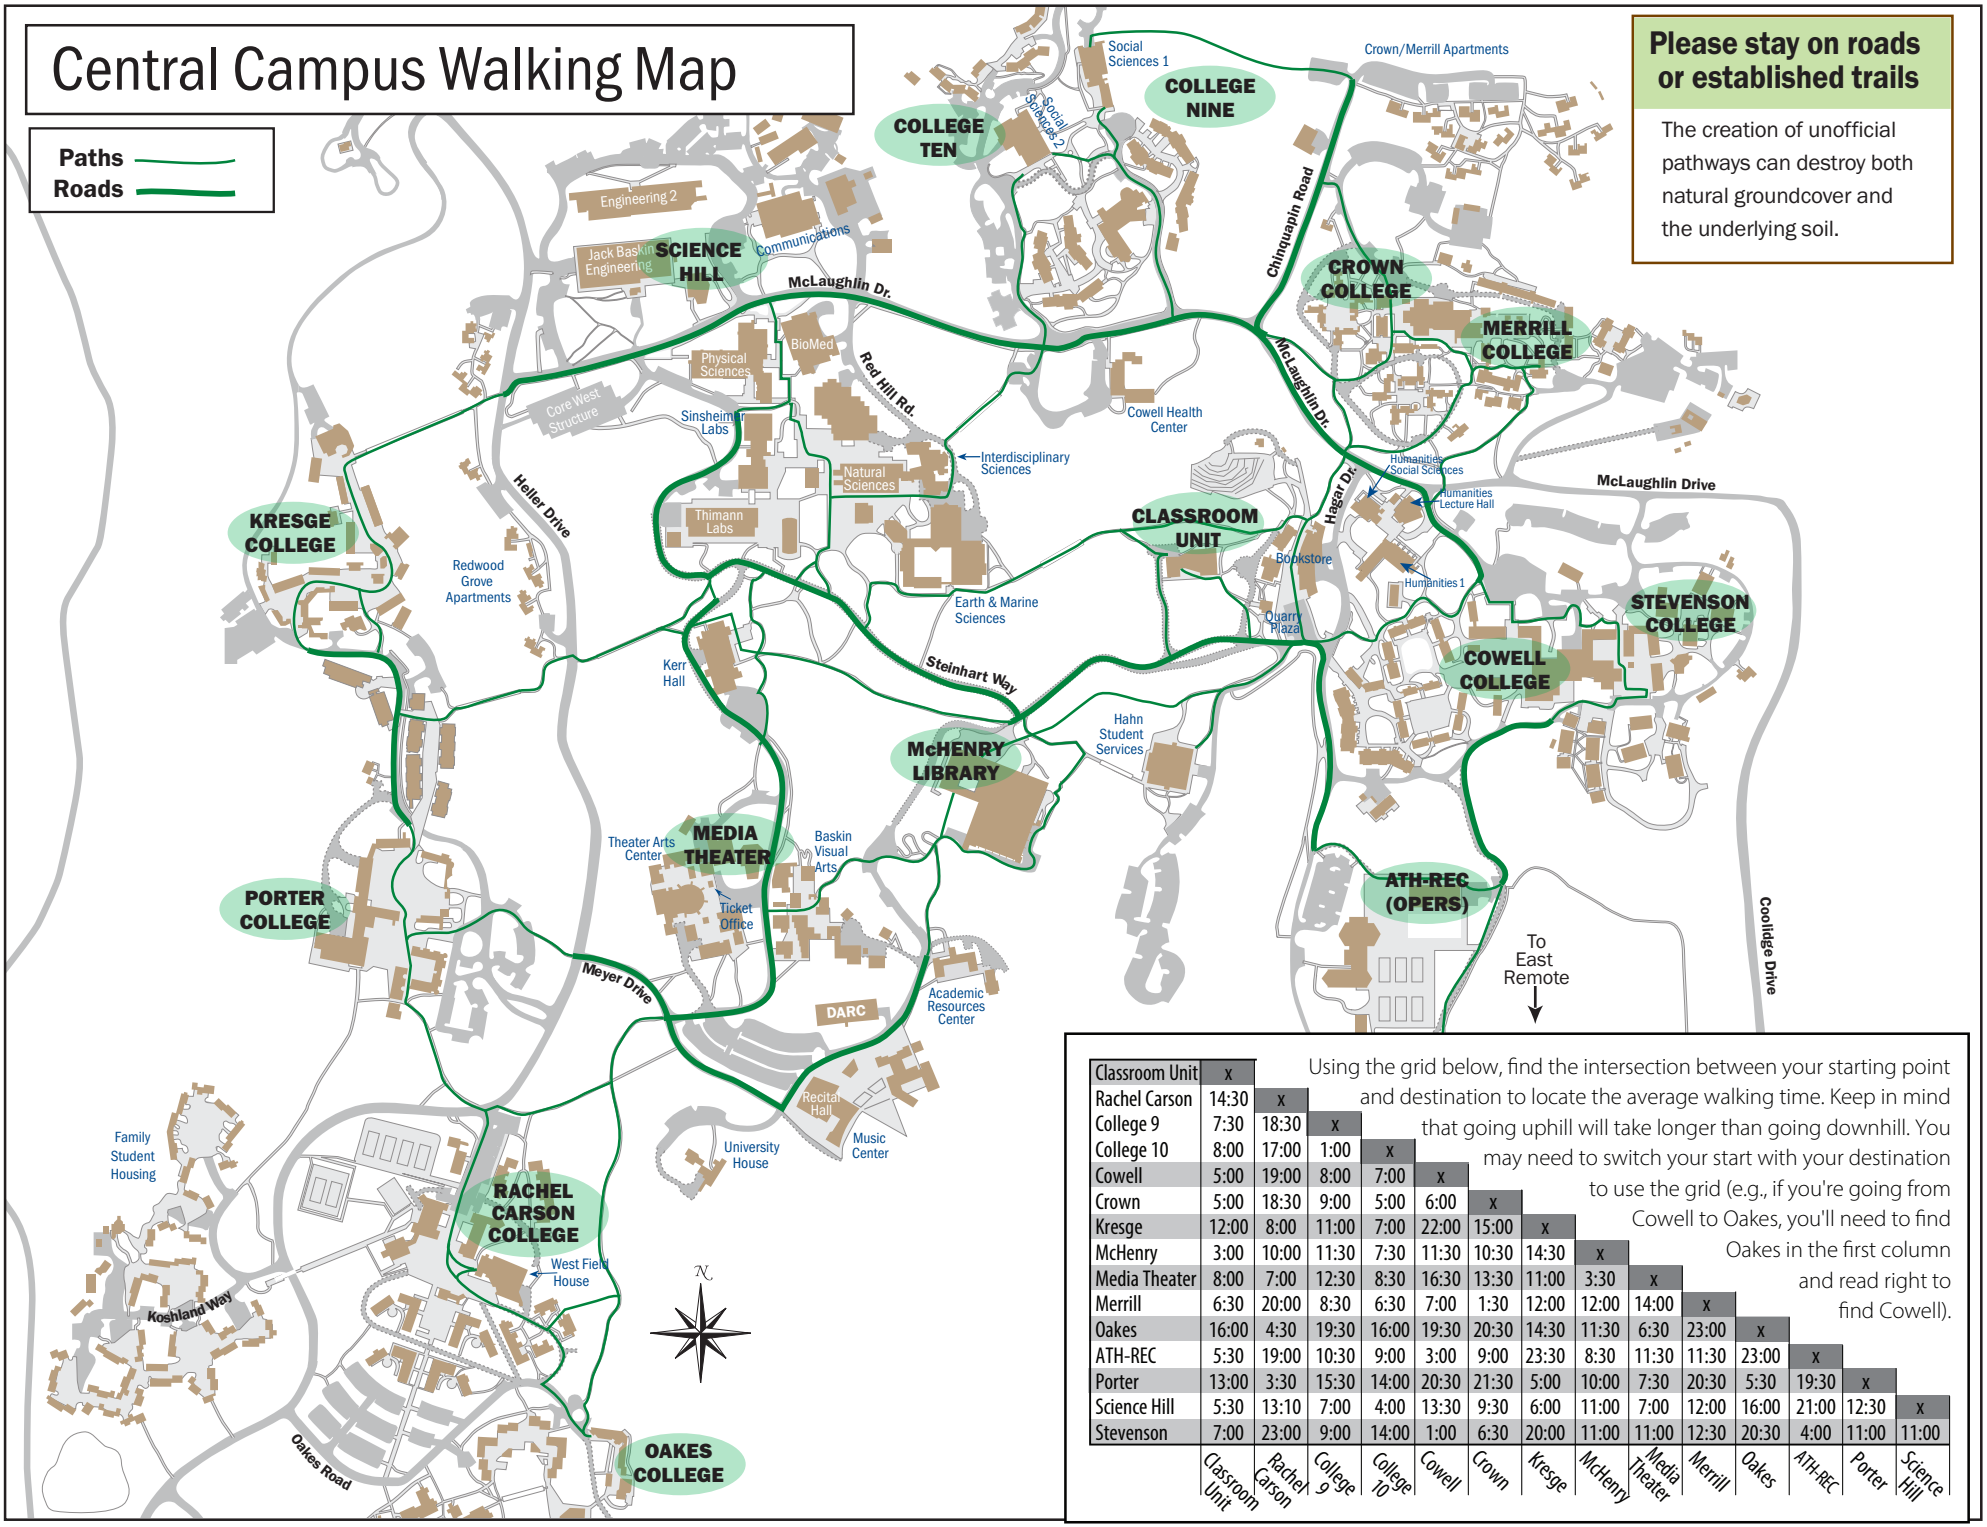
Central Campus Walking Map

Paths
Roads

Please stay on roads or established trails

The creation of unofficial pathways can destroy both natural groundcover and the underlying soil.



Using the grid below, find the intersection between your starting point and destination to locate the average walking time. Keep in mind that going uphill will take longer than going downhill. You may need to switch your start with your destination to use the grid (e.g., if you're going from Cowell to Oakes, you'll need to find Oakes in the first column and read right to find Cowell).
