## Molecular, Cell & Developmental Biology Assistant Professor

The [Department of Molecular, Cell and Developmental Biology](#) at the University of California, Santa Cruz invites applications for a tenure-track faculty position. We seek candidates whose research centers on vertebrate cell biology, with an emphasis on stem cells or cancer. The ideal candidate will complement our department's strong research programs in cell biology, cell cycle control, chromatin, RNA biology, and stem cell research. Research space is located within the MCD Biology Department in Sinsheimer Laboratories and in our animal facility. UC Santa Cruz has been successful in obtaining extensive support from the California Institute of Regenerative Medicine for stem cell research programs, for new facilities, and for graduate student and postdoctoral training.

This appointment will be made at the Assistant Professor level. The successful candidate will be expected to establish a vigorous, externally-funded research program, contribute to the intellectual vitality of the MCD Biology department, and teach at both the undergraduate and graduate levels. Colleagues who can contribute to the diversity and excellence of the academic community through their research, teaching, service, and/or leadership are particularly encouraged to apply.
