

LOVE TO RIDE

Urban Rider's Workshop

FOR UCSC EMPLOYEES!

Ride safe and smart!

Are you curious about how to ride your bike safely and confidently? Ever wonder what the rules of road are and how you fit in on a bike? How about gear selection, locking your bike properly, riding at night, or how to pick a good bike route across town? Find the answers to these questions and more at this urban riding workshop.

Matt Miller from Ecology Action will run us through all the need to know for urban riding and be available to answer questions and guide curious cyclists of all levels and backgrounds.

This workshop is offered to UCSC employees as part of the Workplace Bike Challenge, a pilot program Ecology Action is running to encourage biking through gamification, friendly competition, and incentives. Cycle September was part one and a spring challenge will take place in May 2019!

Free lunch provided for those who RSVP!

RSVP - surveymonkey.com/r/UCSCurbanridingworkshop2019
