USER EXPERIENCE DESIGN

the process of enhancing user satisfaction by improving the usability, accessibility, and pleasure provided in the interaction between the user and the product.

- Wikipedia

*the **process** of enhancing user satisfaction by improving the usability, accessibility, and pleasure provided in the interaction between the user and the product.*

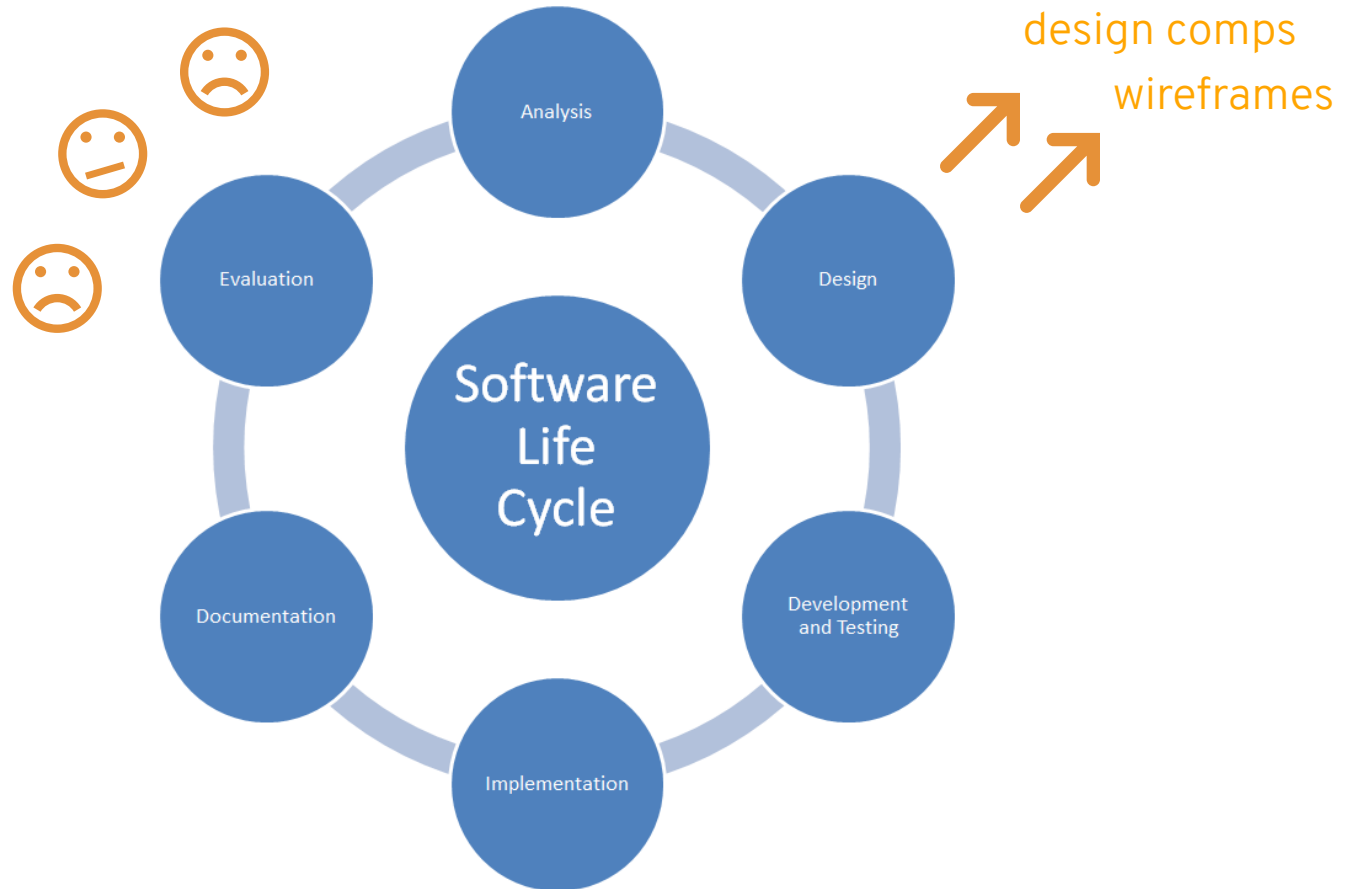

- Wikipedia

TOOLS OF THE TRADE

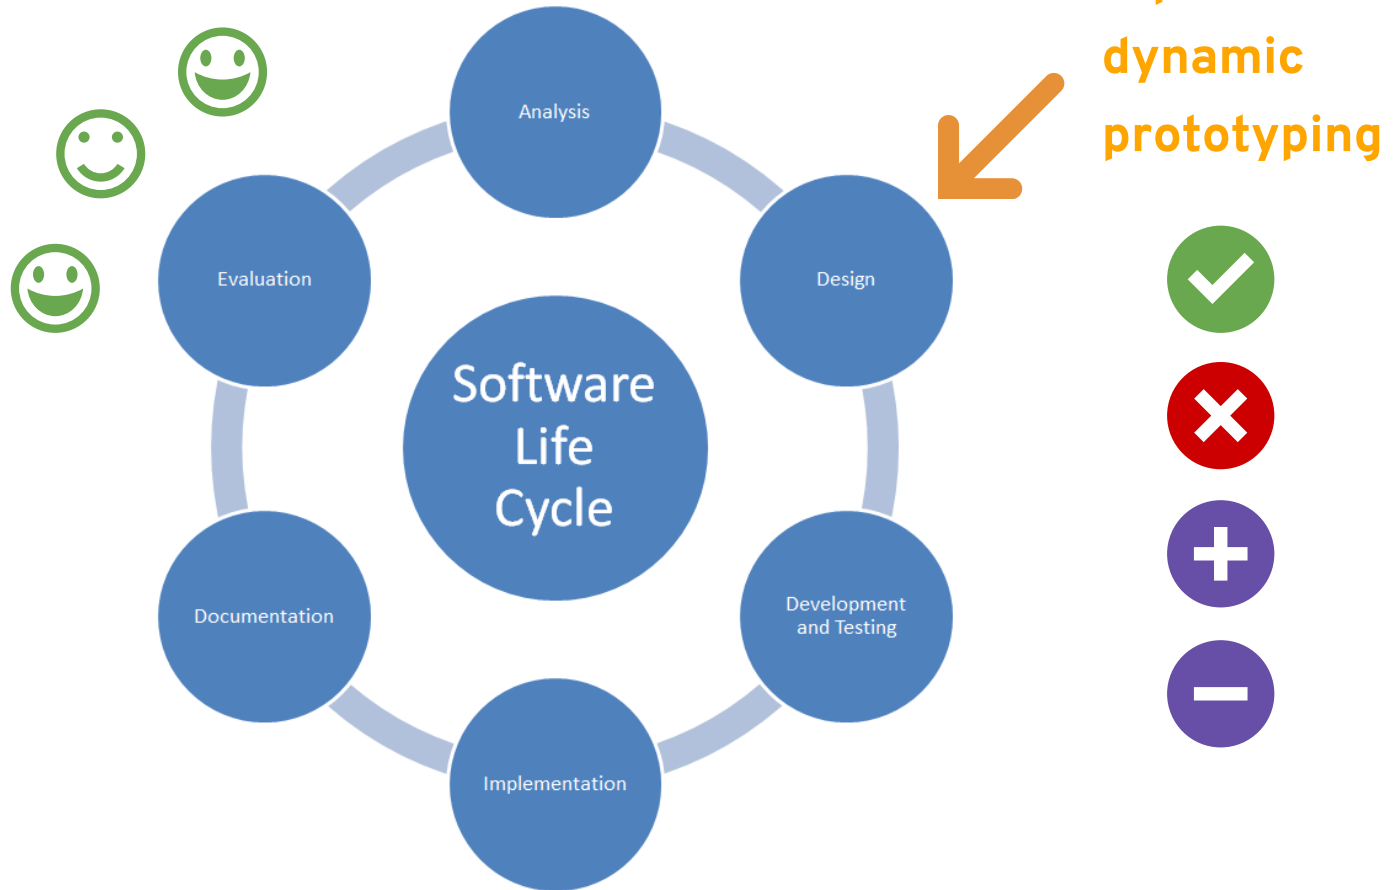

- Personas
- Interviews
- Cardsorting
- Sitemaps
- Affinity Diagrams
- Scenarios
- User Story Mapping
- Static Wireframes
- Flow Diagrams
- Dynamic Prototypes
- Web Analytics
- A/B Testing
- User Tests

Lab Safety Training & Assessment
Valid for Summer '16

1. Training

2. Assessment

History

 Kathleen Lee

STUDENT LAB SAFETY ASSESSMENT

Valid for Summer '16

Ready to test your knowledge?

You will now take a quiz to test your knowledge of the information you have just read.

**80% or higher,
30 minutes or less**

You will have **30 minutes** to answer 22 questions, and must **score 80% to pass**

**Each assessment
is different**

The questions are randomly drawn from a pool. Keep in mind that **you will not be able to check the training materials** while you have an assessment in progress.

Re-take as needed

You can re-take the assessment as many times as you need to (there's a **one-hour waiting period** between attempts)

I, Kathleen Lee, understand that this is a **closed-book** assessment, and I am to complete it without the help of others

Review Training

Let's begin!

*the process of **enhancing user satisfaction** by improving the usability, accessibility, and pleasure provided in the interaction between the user and the product.*

- Wikipedia

*"I expect the **best graduate programs** to have the **best websites** and it is extremely **frustrating** when a program's website is **obviously old and stale...***"

*the process of **enhancing user satisfaction** by improving the usability, accessibility, and pleasure provided in the interaction between the user and the product.*

- Wikipedia

IMPROVE:

- Usability
- Accessibility
- Pleasure

*the process of enhancing user satisfaction by
improving the **usability**, accessibility, and
pleasure provided in the interaction between the
user and the product.*

- Wikipedia

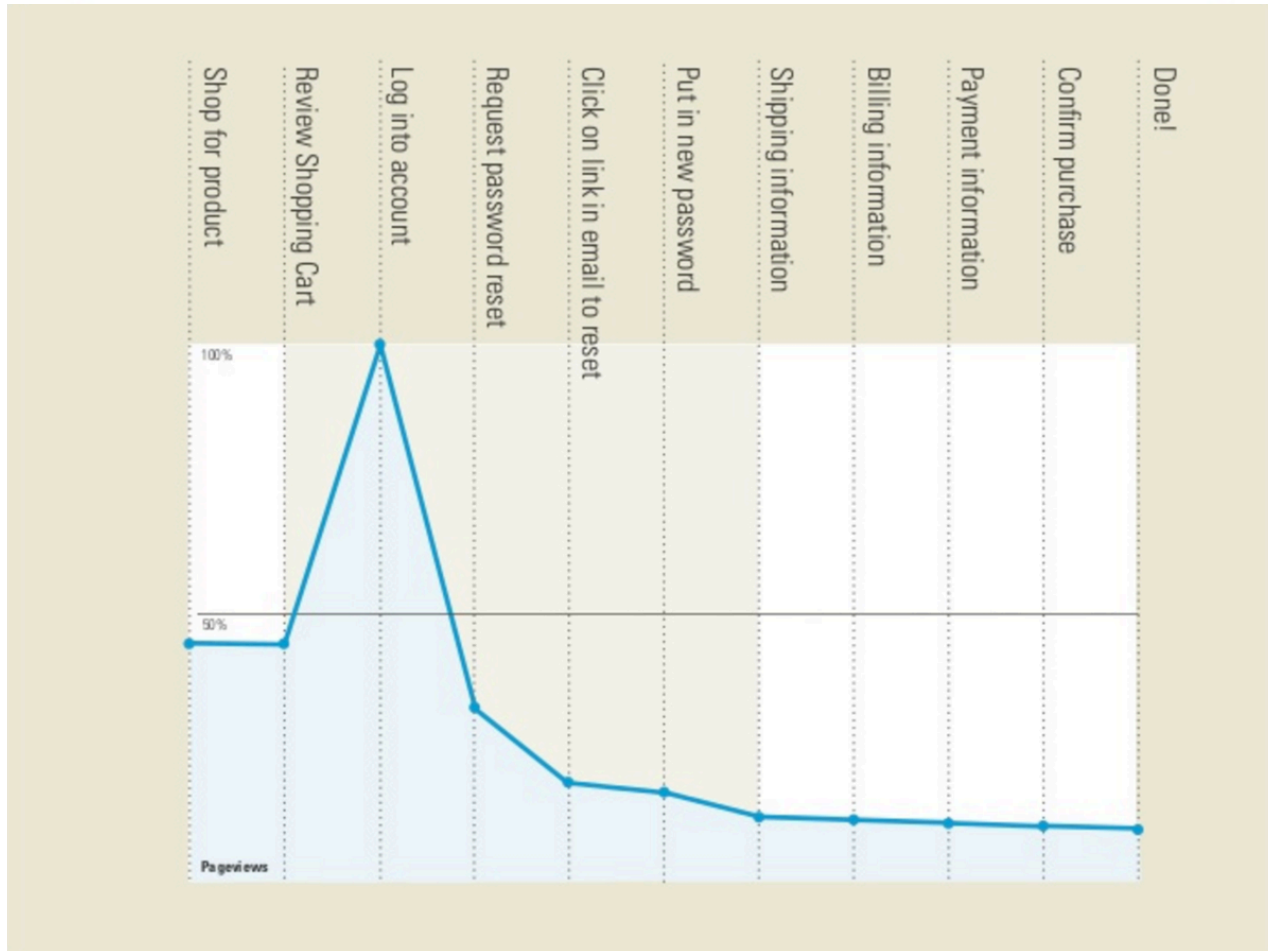

- **Who** are the users?
- **Why** are we doing it?
- **What** improvements do we want to make?
- What **goals** do we have for the end product?
- What are the **features** that will achieve those goals?
- **How will we measure our success?**

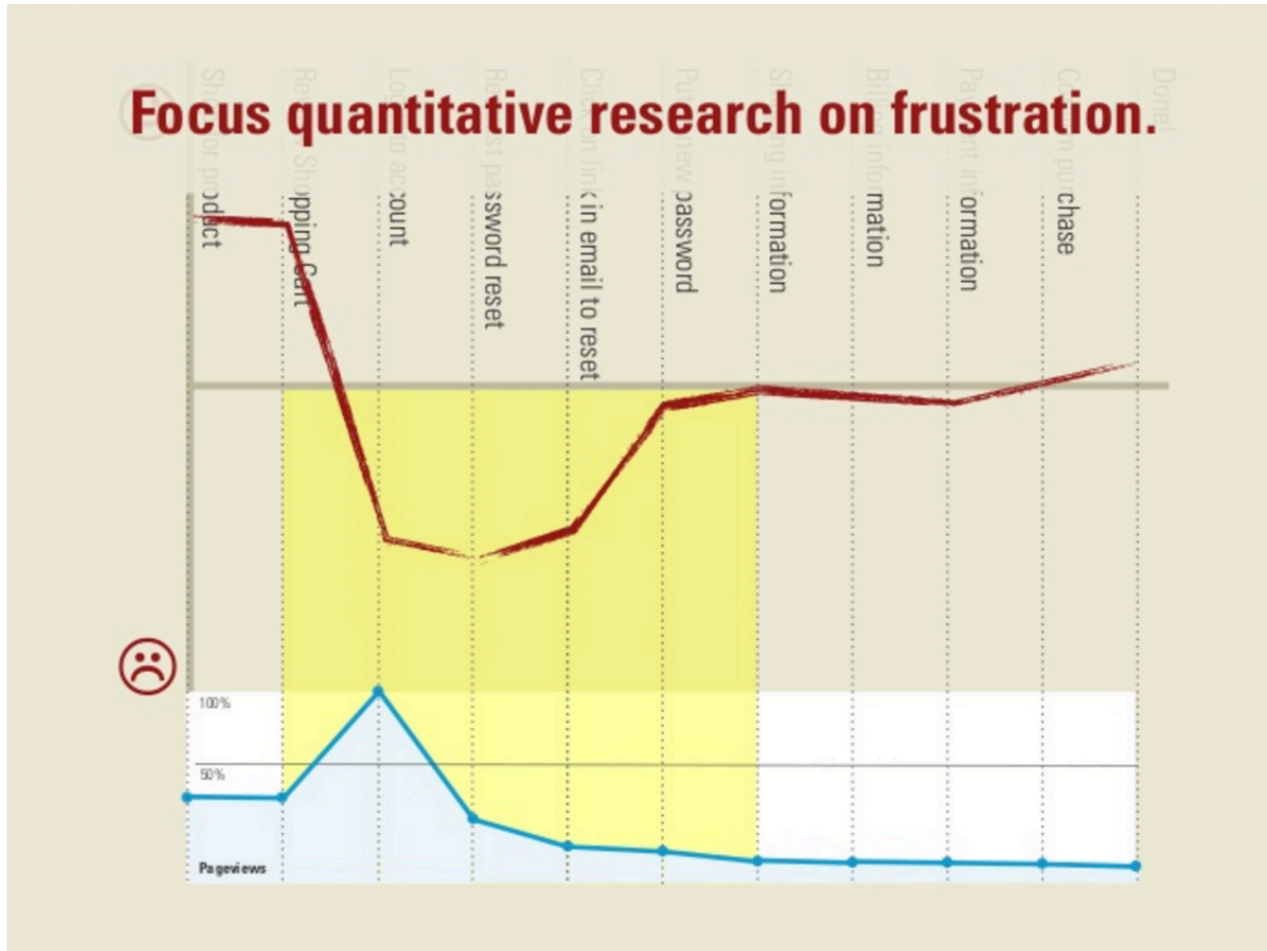

HOW DO WE MEASURE SUCCESS?

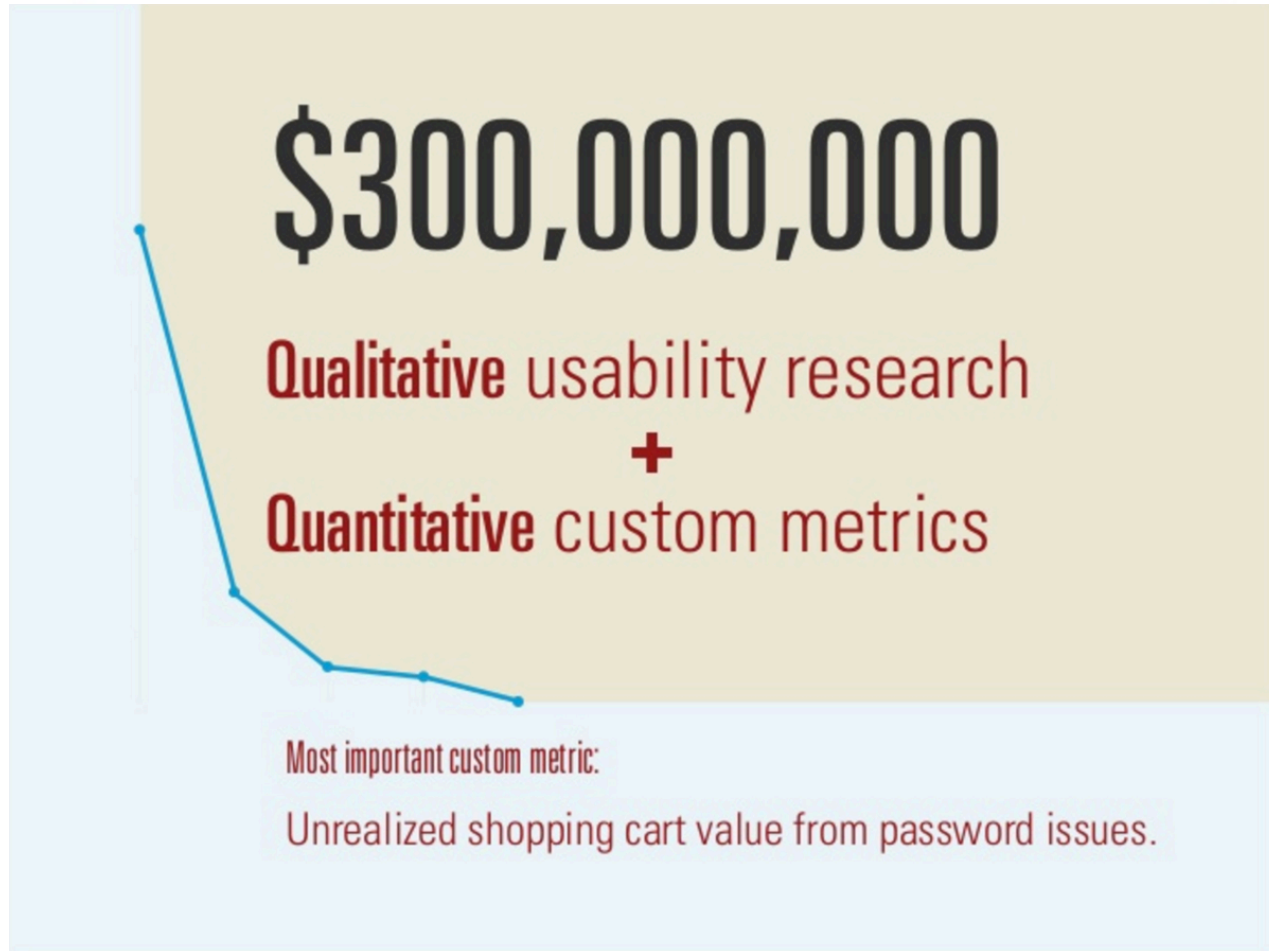

- Completion Rate
- Task Abandonment
- External Metrics
- UX Metrics

Is Design Metric ally Opposed?

HOW DO WE MEASURE SUCCESS?

- Completion Rate
- Task Abandonment
- External Metrics
- UX Metrics

*the process of enhancing user satisfaction by improving the usability, **accessibility**, and pleasure provided in the interaction between the user and the product.*

WIGGLE BREAK

UX IS NOT UI

USER INTERFACE DESIGN IS PROGRAMMABLE

- Visual Design
- Graphic Elements
- Interactivity

USER EXPERIENCE DESIGN IS A GOAL

- to enhance user satisfaction

IT'S NOT ABOUT YOU

WHO HAS TIME FOR UX?

KEEP IT SIMPLE, STUPID

- **Who** are the users?
- **Why** are we doing it?
- **What** improvements do we want to make?
- What **goals** do we have for the end product?
- What are the **features** that will achieve those goals?
- **How will we measure our success?**

REAL LIFE EXAMPLES

UX IS A MINDSET...
SO THINK ABOUT IT!

HOMEWORK

In the next week,

talk to someone who uses a product you've created.

THANKS!
