Westside Bike Shuttle
Pick-Up Point

Toledo

Mission Street

Bay Street

Safe Routes to the UCSC Westside Bike Shuttle

Mission Street is a major truck route through the west side of Santa Cruz. In the interest of bicyclist safety, routes that minimize bicycle travel time along this thoroughfare are recommended.

If traveling from the ocean side of Mission:

Travel north on Bay Street to Mission. Use the left-turn pocket and “protected left” arrow at the traffic signal to turn safely onto Mission. Ride one block to Olive Street, then turn right to reach the Bike Shuttle Pick-Up point.

If traveling from the UCSC side of Mission:

Travel along King Street to Bay Street. Turn onto Bay Street and head toward the ocean. Turn right onto Toledo and proceed to Olive and the Bike Shuttle Pick-Up point.

Safety Tips: When cycling behind a truck...

- Stay back, position your bike slightly right within the lane.
- If you see the truck’s mirrors, the driver can see you.
- Use hand signals to communicate to drivers.
- Be Predictable!
- Obey traffic laws.
